WALK THE TALK CONFERENCE 2019
OUT OF THIS WORLD
MARCH 9TH 2019
THE STRAND HOTEL, LIMERICK
Ian qualified from Leeds in 1998 and went into general practice in the North West. In 2001 he was awarded Membership of the Faculty of General Dental Practitioners. In 2002 he joined the teaching staff at Liverpool Dental Hospital in the Periodontology Department where was the Undergraduate Teaching Lead in Periodontics and held a Senior Clinical Teacher position until 2018. In 2010 he completed his MSc in Periodontology and in 2013 he was admitted to the GDC Specialist List in Periodontics. He has served on the Council of the British Society of Periodontology and is part of their lecturing Faculty.

Jo a multi award-winning dental hygienist qualified from Leeds in 1988 and currently works in a dental practice in Crewe. She works in a team where implants are placed by 3 different clinicians and is very involved in the preparation and maintenance of these implant patients. She has been a Key Opinion Leader for various dental companies such as Philips, Swallow and Acteon. She has additional qualifications in teaching, mentoring, counselling and smoking cessation.

ACTEON

BIOHORIZONS

SCIENCE • INNOVATION • SERVICE
Minesh Patel  
Dental photography and aesthetic dentistry  

Graduated with honours from Barts and the London School of Dentistry in 2009. He soon embarked on a three years Masters program in Aesthetic Dentistry at Kings College London and was one of the few dentists in the country to receive this accolade. He completed a one year post graduate training program in surgical and prosthetic implantology in Cambridge as well as numerous other accreditations, including cosmetic orthodontics using fixed and invisible braces. Has a passion and enthusiasm towards his profession and the science and artistry it involves. He has conducted research on modern white filling materials used for back teeth and has written a highly scientific paper and case reports for a popular dental journal in order to help guide and assist other dental professionals on modern techniques.

Aims & objectives

1. Understand photographic consent, storage considerations & social media guidance
2. Become familiar with the relevant camera equipment, accessories & settings
3. Appreciate the key elements of lighting & their effects on your image
4. Learn the relevant views and how to take a full clinical series of photographs
5. Learn multiple lighting techniques for all levels & produce superior images instantly
6. Learn how to best use photography in practice to further your career action plan

Implant Workshop for Dental Nurses 2019

Presented by Kasia Allan

- 6 CPD hours

Course Description

The ideal course for Implant Nursing! This course aims to increase delegate knowledge and confidence in Implant Dentistry through a series of interactive presentations and workshops throughout the day.

Delegates will learn the key features of an implant, and what makes for successful osseointegration. The course will cover basic facial anatomy and delegates will acquire a better understanding of patient selection and the consultation process. They will also get to understand the importance of their role in relation to assisting the dentist with both pre and post-op patient care as well as setting up the surgery with the correct instrumentation and equipment.

Learning Objectives

Delegates will increase their knowledge in line with GDC guidelines on:
- Implants
- Setting up the dental surgery
- Basic anatomy
- Aseptic technique

Kasia Allan

Kasia Allan has been actively involved in training Dental Nurses in the field of Implant Dentistry for the past 5 years and recognises the importance of Continuing Professional Development, having completed her Certificate in Implant Dental Nursing at Kings College, London.

Registered with the GDC and a member of both the ADI and ADIA, Kasia has over 11 years experience in assisting many invasive, advanced and complex procedures and is keen to share her knowledge and encourage her professional peers to adhere to best practice and GDC guidelines.

Timetable

08:30 Registration

Session 1
09:00 Getting to know the support available to you and your practice
09:45 The importance of Dental Implant Nurse Training & activity 1 (create your own implant)
10:30 Break

Session 2
11:15 History and Biology of Dental Implants & activity 2 (Bone density challenge)
11:45 Patient Selection & activity 3 (thinking about patient objections)
12:30 Lunch

Session 3
13:30 Consultation, process and treatment planning & activity 4 (key instruments for the implant procedure)
14:15 Aseptic technique & Implant placement. Activities 5 & 6 (gowning and gloving and place an implant exercise)
16:30 Questions, feedback and CPD

Sponsored by Pamex
Elaine Tilling Dental Hygienist, has been an active member of BSDHT. Elaine continues to teach and present on various subjects, speaking at many of the BSDHT Regional meetings. She is currently the Education and Project Manager for TePe Oral Hygiene Products Ltd where she is involved with designing and implementing educational programmes for the dental profession. Elaine has also served on the National Oral Health Promotion Group committee and is a Past President of the Institute of Health Promotion and Education.

Sustainability in Dentistry

- To provide an overview of the current and future potential options for general dental practice to reduce their environmental impact
- Be aware of new and planned legislation governing single use plastics and their potential impact on dentistry
- Have a clearer understanding of the terminology used in environmental policy
- Be able to formulate a simple, local strategy in your practice to reduce your environmental footprint
- Elaine will present on each stream during the conference.

Shared Responsibility for the three R’s

**REDUCE**
Reducing is simply creating less waste. It’s the best method for keeping the earth clean as it stops the problem at the source.

**RE-USE**
Reusing is taking old items that you might consider throwing away and finding a new use for them.

**RECYCLE**
Recycling is changing old products into new ones so they can be reused. Less new plastic will need to be made.
Conference Registration

Name: 
Print delegate name attending
Address: 
Email: 
Telephone: 
Irish Dental Council registration number
GDC registration number if registered in U.K

Total Payment: 
Payment Method: 

Cheque made payable to Dentalcpd.expert
